Topic 3: Building the website

ADILA NORDIN JAN 30, 2022 03:31AM

## TO DO:

1. Download and install Bluegriffon  
<http://bluegriffon.org/>
2. Create a simple website on Bluegriffon that uses several of the common tags
3. Host it on Neocities <https://neocities.org/>
4. Post your Neocities link on padlet (here)

Happy exploring! :D

### BlueGriffon

BlueGriffon BlueGriffon ® The next-gen Web and EPUB Editor based on the rendering engine of Firefox ® Version 3.1 released 2019-oct-14.

OCR! " My HTML Editor is

BlueGriffon, an intuitive, modern and robust application. I like that what I see is what I get on the Web.
